The Norwegian Public Roads Administration in cooperation with the Norwegian University of Science and Technology and Norsk Treteknisk Institutt (*Norwegian Institution of Wood Technology*) have pleasure in inviting you to a Conference on Timber Bridges, which will take place at the [Radisson SAS Lillehammer Hotel](#) in [Lillehammer](#), Norway, on 13-14 September 2010.

**The main objectives of the conference are to discuss and showcase the state of the art in timber bridge technologies, durability, maintenance, structural systems and detailing and recent construction projects. Academics, researchers and professionals interested in the field of timber engineering and design are invited to attend the conference to learn about innovative solutions and the application of new methods, theories and technologies in the areas of timber bridge planning and construction.**

## International Scientific Committee

Nils-Ivar Bovim (Norway)	Kjell Arne Malo (Norway)
Aarne Jutila (Finland)	Gerhard Schickhofer (Austria)
Robert Kliger (Sweden)	Kurt Schwaner (Germany)
Heinrich Kreuzinger (Germany)	James Wacker (USA)

## The deadline for submission of abstracts is 1 December 2009.

A large number of timber bridges have been constructed in Norway in the last ten years. They range from small pedestrian bridges to long road bridges with spans of up to 70.3 metres. Conference tours to visit a number of selected bridges will be arranged.

Other important dates are:

- Final call for papers 1 October 2009
- Electronic submission of abstracts 1 December 2009
- Notification of acceptance by e-mail 1 February 2010
- Submission of full paper (electronically) 1 July 2010

We look forward to seeing you in Lillehammer in 2010.
